

DEAR COLLEAGUES!

INSTITUTE OF PUBLIC HEALTH AND OCCUPATIONAL HEALTH OF KARAGANDA MEDICAL UNIVERSITY NC JSC

invites you to take part in the scientific-practical conference with international participation on the topic of **PROTECTING THE HEALTH OF MEDICAL WORKERS**, dedicated to the 80th anniversary of academician G. Kulkybaev, which will be held on June 22-23, 2020.

GABDULLA ABDYKOZHAEVICH KULKYBAYEV was an academician of the NAS of the Republic of Kazakhstan, doctor of medical sciences, professor, famous scientist, organizer of science, director of the National Center for Occupational Health and Occupational Diseases of the Ministry of Health of the Republic of Kazakhstan (1990-2006).

G.A. Kulkybaev was a member of the Presidium of the NAS of the Republic of Kazakhstan and a member of the highest scientific and technical Council of the Ministry of Education and Science of the Republic of Kazakhstan (1999); academician of NAS of the Republic of Kazakhstan (2003); member of the International Association of Physiologists; Vice-President of the Physiological Scientific Society of the Republic of Kazakhstan (2003); since 2005 a member of the Commission on State Prizes for Science and Technology under the Government of the Republic of Kazakhstan; chairman of the Council for the defense of doctoral and candidate's theses in Hygiene and Occupational Medicine.

He is an author of more than 400 scientific papers (60 of them published abroad), 24 monographs, 15 patents and provisional patents of Russia and the Republic of Kazakhstan. He edited 19 collections of scientific papers. He is an author of the popular science book on the topic of *Arthronosos* in Kazakh, 30 literary-critical papers, 10 papers in *the Kazakhstan's Encyclopedia* in Kazakh. 27 doctoral and 61 candidate's theses were defended under the leadership of G.A. Kulkybaev.

The academician has developed a scientific program of the institute's activities until 2005 on the topic of *Ecology of the Industrial Region and the Health of Workers*, where new research areas were identified and successfully implemented from 1990 to 2005: *The Unity of the Impact of Industrial and Environmental Spheres on the Body of the Worker*, *Health of the Working Population of the Republic*, *Hygiene of Mental Activity and Early Hygienic Diagnostics*.

The developed research program for 2005-2010 identifies urgent issues of hygiene in agriculture, transport and the asbestos mining industry as well as problems of combined forms of occupational diseases, ecology-related diseases, industry-related diseases and molecular-genetic studies in hygiene. The results of the research have influenced the development of the direction in the field of medical ecology, hygiene and medicine, and industrial toxicology in the Republic of Kazakhstan.

International projects on the INTAS fund were carried out under his leadership in collaboration with scientists from Belgium and France at the ISTC, at «Ifracos» and others.

He was awarded medals of Al-Farabi, 10 years of the Constitution and Veteran of Labor, marks of Excellent Health Care and for Services to the Science of Kazakhstan, an honorary diploma of the Ministry of Education and Science of the Republic of Kazakhstan and an honorary diploma of the Republic of Kazakhstan. He was an honorary citizen of Karaganda city and Zhanaarka district of the Karaganda region, a scholarship holder of the State Scientific Scholarship for Scientists and Specialists who made an outstanding contribution to the development of science and technology (1997-2003).
